

Anders Fredrickson | Project Engineer

Anders is known for his quick and effective communication with our Subcontractors and Designers to ensure all stakeholders are on the same page and that the project is moving efficiently to completion. He has acute attention to detail as he manages submittal logs and logs for OAC meetings, and he keeps an alert awareness of timing as he focuses on the delivery of materials. Working elbow to elbow with our Superintendents, Anders ushers the project from inception to punch list finalization.
