

Ryan works diligently with our Superintendents and Trade Partners to maximize resources so that the project completes safely and on time. He maintains an even focus on the project plans and specs, stormwater and SDS management, infection control, and pedestrian routing. The project always has swift delivery of materials because Ryan has a great relationship with our supply vendors. Last, he pushes for punch list corrections until the project is precisely what the stakeholders envisioned.

EDUCATION

California Polytechnic State University,
San Luis Obispo- B.S. Construction Management

TRAINING

- OSHA 10
- Stormwater Training
- First Aid and CPR

RELEVANT EXPERIENCE

- Parker Adventist Medical Office Building with 70,000 sf of Tenant Buildout, Parker, CO; \$25MM
- Swedish Medical Center, Pharmacy Remodel, Denver, CO; \$985K
- Dry Creek Medical Office Building with 50,000 sf of Tenant Buildout, Centennial, CO; \$17MM
